Certifications

Google Data Analytics Certification

Strategic and analytical professional specializing in **AI process automation**, with deep hands-on experience identifying **AI use cases**, leading **proof-of-concepts**, and shipping **generative AI** and **agent-based** automation that delivers measurable operational ROI.

Skills

- AI Implementation & Tool Building

- SQL (Snowflake)

- Data Visualizations

- Cross-Functional Partnership

- Workflow Automation

- Python

- Multi-Agent Systems

Work history

Technical Projects

Browser-Based Analytics Terminals (Built with Anthropic's Claude)

- Built **Training Terminal**, a single-file, browser-based **coding terminal** (xterm.js) for practicing **Python, SQL, JavaScript, and Rust** with **200 hand-authored questions across five gated tiers** (Introductory through Master); runs real code through **Pyodide, sql.js**, and a **sandboxed Web Worker**, with **localStorage-persisted progression** and per-tier concepts, cheatsheets, and hints
- Built a **high-volume asset tracking terminal** on a **Python FastAPI backend**, with an **automated data pipeline** using **GitHub Actions** for **weekly serverless CI/CD workflows**

AI-Assisted Financial Modeling & Evaluation Suite (Built with Anthropic's Claude)

- Built **dynamic financial engines** including a **probability-weighted valuation model** and a **\$3M TRS retirement planner**, owning the **financial logic and architecture** while directing Claude to generate the code
- Validated every output against standard financial formulas**, catching **calculation errors** and refining the prompts until the math held up, while only prompting Claude with **test or sample data** to keep proprietary information out of the model

Toast Inc

Senior Capital Underwriter, Process Automation | Remote, TX | December 2021 - Current

- Build and orchestrate **AI agents** as part of Toast's **Claude Code** and **Cowork** rollout, with an **orchestrator** routing work to scoped **sub-agents** (workflow automation, code audit, technical PM, devops, technical writing) that **audit, validate, test, and auto-generate the SOP** for every tool shipped
- Automate high-volume operational workflows** by shipping reusable tools, including a **Funding Verification Tool** (an in-browser **four-source JOIN engine** with processor-specific match logic) that cut a reconciliation workflow from **20-35 minutes to 40 seconds**
- Spearheaded a **0-to-1 operational strategy** by running a **time study**, building an efficiency and ROI analysis, and shipping a **70% operational improvement**, partnering across Product, Engineering, and Operations end-to-end
- Designed and shipped a **full-stack case management web application** using **Google Apps Script, JavaScript**, and **Chart.js** with real-time analytics across **700+ active cases**

- Authored complex **SQL** queries in **Snowflake**, **Salesforce** reports, and automated **Hex** dashboards that synthesize performance data and present executive-ready summaries across **\$400M+** in capital deployments
- Monitor **customer health** across the Toast Capital portfolio using **Salesforce** and transactional data, building projections and tracking contingency scenarios that surface performance trends across the SaaS customer journey

● **Torres Financial Services, Inc**

Portfolio Management Advisor | San Antonio, TX | 2019 - 2021

Junior Analyst | San Antonio, TX | 2017 - 2019

- Assessed portfolio data to **develop KPI dashboards** to support risk strategies, budgeting, and long-term financial planning
- **Guided the implementation of new solutions** by presenting executives to **deliver strategic insights** using internal data and industry benchmarks to **influence key business** and investment decisions
- **Streamlined and managed reporting processes** through automation and live feed data for **real-time analysis** to enable faster and accurate decision making
- **Conducted comparative analyses of historical and current earnings data**, establishing **data-driven recommendations** that drove long-term financial initiatives and improved overall portfolio performance
- **Collaborated with compliance and risk teams** to ensure adherence to financial regulations and strengthen risk management

Education

Bachelor of Business Administration in Finance

The University of Texas At San Antonio, San Antonio, TX
